

It is easy to save a Digital Scrapbooking page made in Photoshop® Elements 6. If you have completed a Digital Scrapbooking page, or need to take a break, and would like to make any revisions or additions to the page later, saving the Digital Scrapbooking page to your computer is always the best option.

Step 1: Open the Digital Scrapbook Page or Project that Needs to Be Saved

Once you have completed a Digital Scrapbooking Page in PSE 6 it is helpful to save it to work on later or for future use.

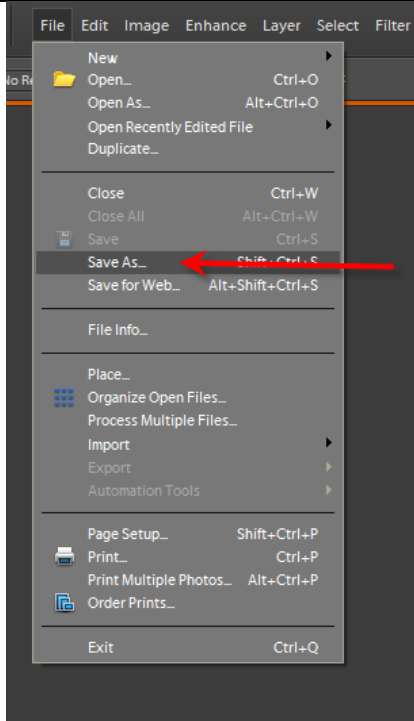

To Save – you must have a Digital Scrapbook Page Open in Photoshop® Elements 6

Next click on the digital page with your mouse you want to save to make sure it is selected

Step 2: Next go to the Menu Bar and Select the Save As Command

Go to **File > Save As** (see red arrows)

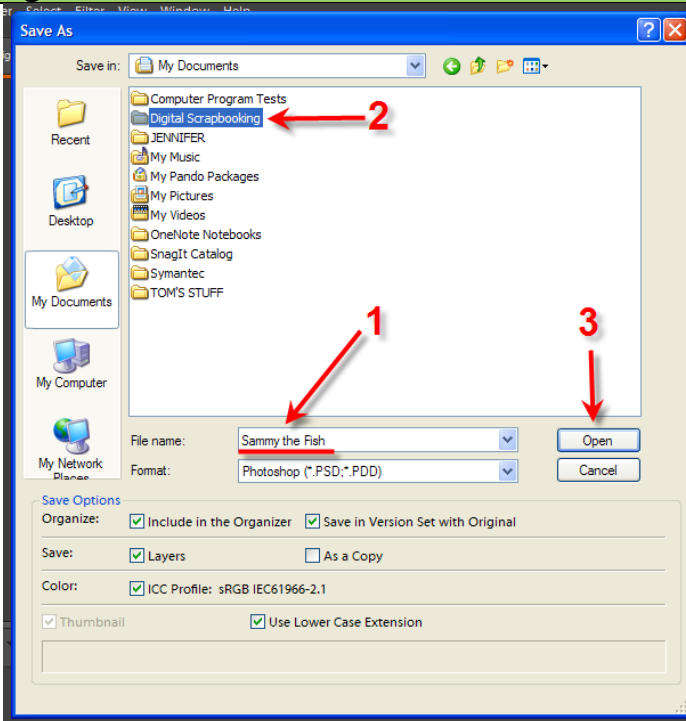

Step 3: Name the Page and Navigate to Correct Folder

First, make sure that your new Digital Scrapbook page has a name.

Type in the name of the page in the **File Name** box (see arrow #1 in red)

Double click on the folder that you would like to save the Digital Scrapbooking Page in to open the folder (see arrow #2 in red)

Then press **OK** (see arrow #3 in red) to open the folder

Step 4: Save your Digital Scrapbooking Page in Specified Folder

Once you have navigated to a folder, click **Save** button

Your Digital Scrapbooking Page created in PSE 6 is now saved!

Next time you want to use this digital scrapbooking page - just navigate to this folder and open it in PSE 6
